

RUN-R TECHNOLOGIES

1
**CLIMA MANAGEMENT/
UPPER TECHNOLOGIES**

3D Mesh:
excellent breathability

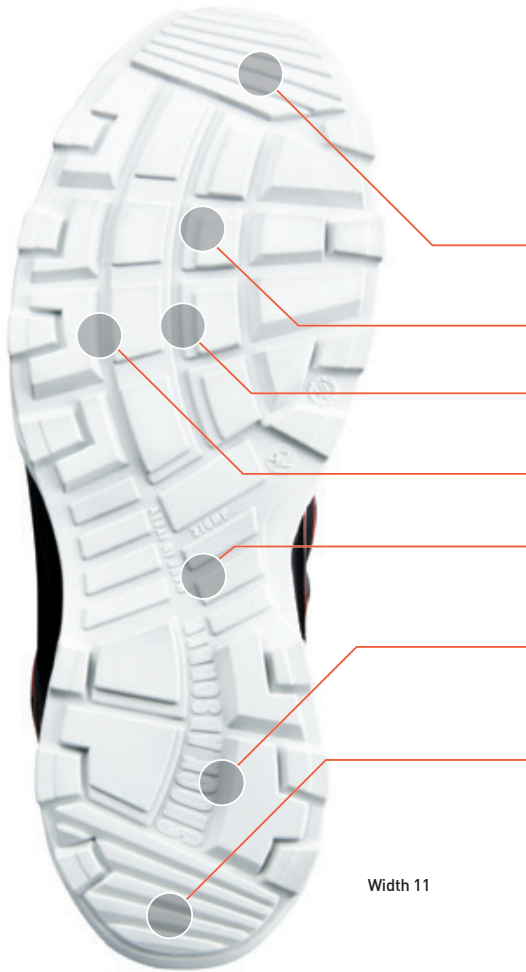

2
**SPEED LACE
SYSTEM**

3
METAL-FREE TOE CAP

200j resistant | 100% non-magnetic | painless due to his ergonomic shape | wide fitting & extremely comfortable | 20% lighter than steel toe caps | less cold and heat conduction than steel toe caps

**100%
METAL
FREE**

PU2D SOLE

SRC | oil, hydrocarbon & chemical resistant | antistatic | highly flexible

deep grooves for better grip in the forefoot area

wide ground-bearing surface

sharp-edged tread profile

self-cleaning sole profile increases slip resistance

GRIPSTEP profile for ladders and stairs

dual density PU for excellent shock absorption

grooves at the back of the heel for a better grip when the heel first touches the ground

RUN-R HYGIENIC INSOLE

removable | anatomically shaped | contains no hazardous substances (REACH compliant) | antibacterial and activated carbon anti-odour treatment | washable at 30°C

METAL-FREE PUNCTURE RESISTANT MIDSOLE

1100N resistant | 100% composite | flexible | 100% non-magnetic | protects 100% of the footbed (versus 85% on average for steel midsoles) | lighter than steel midsoles | less cold and heat conduction than steel midsoles
